AROUND THE WORLD IN 80 DRINKS

PART 2 – SUMMER

Welcome to part 2 of our 'Around The World In 80 Drinks' menu.

The menu is divided by continent, featuring 3 drinks based on ingredients from 3 different countries within the continent, and finally 2 sharing cocktails which combine ingredients from around the world.

The drinks have been carefully designed by our team over a 3 month process and you can expect to find exciting and unusual flavour combinations made using interesting techniques. As always **classic cocktails are available on request** so please do not hesitate to ask.

Please **inform us of any dietary requirements** before ordering as some drinks may contain ingredients that are not listed. A lot of our ingredients are homemade in an environment that may contain nuts, dairy, eggs, sesame and other potential allergens. Please ask for more details.
